

## GRENADINES Cruise 2026

### Waypoints Oct 1, 2025

The Cruising Club of America's 2026 Grenadines Cruise is only three months away. Plenty of time to plan your trip to one of the most beautiful cruising grounds in the world. For our history buffs, CCA member Carlton Mitchell was one of the earliest cruisers in the Windward Islands in the between 1947 and 1965. He published these escapades in National Geographic, Sports Illustrated and Yachting, and basically initiated the charter boat industry. He was followed by RORC member Don Street who began sailing in Western Long Island Sound. He knew these waters so well that he joined forces with Imray to update old British Navy charts and his beloved yawl Iolaire has her name on all current issue Caribbean charts. To date we have 12 boats who have either signed up or are finalizing their charter plans. But there is plenty of room for more

participants. Our cruise [web page](#) has the full roster and registration details. "Group" charters have become a fixture in successful CCA cruises and there are many options in the Grenadines. Simply find your fellow charters, designate a "leader" and contact any of the following cruise companies. there are many options available:

- [SNS Yacht Charters](#)
- [Sonhos Yacht Charter](#)
- [Venture Sail](#)
- [Saint Vincent Yacht Charters](#)
- [Winward Yachts](#)

Anyone interested in a group charter may contact [Peter Rugg](#) oy [Mike McBee](#).

We have updated the itinerary on the Cruise Web Page with additional details. For example, when we are in Bequia and Mustique, the annual Music Festival will be going on. Several boats plan to be at Basils Bar, Mustique for lunch to listen to a local band.

Mike McBee

Flag Advisors – Jay Gowell, Chace Anderson, Ernie Godshalk

## **GRENADINES Cruise 2026**

Lastly, we will be opening a WhatsApp Group shortly and will share a QR code for cruise participants and other interested parties to join. Everyone will have a chance to share information and questions.

January and February can be windy, raw, snowy for those of us in most CCA stations. The Grenadines will be warm and sunny with daytime temperatures in the low to mid 80s. The trade winds will be ENE 15-20 knots giving us a lot of fast reaches from island to island.
